

“FOCUS ON PNEUMONIAS: OVERVIEW AND THERAPEUTIC APPROACH”

Target: Medical Doctor – All Specialties

Online from 01/06/2020 to 28/05/2021
Scientific Coordinator: Prof. Pierluigi VIALE

RATIONALE - LEARNING OBJECTIVES

A number of questions concerning the optimization of the management of patients with pneumonia are the subject of this educational event comprising a series of interventions of influential speakers who will address each topic - in a distance-learning format - with expertise and experience to provide learners with a comprehensive overview of all the factors to be assessed at each step of the diagnostic-therapeutic algorithm.

PLATFORM LOCATION

This course will be provided by Consorzio Formazione Medica Srl through its website www.coformed.org with reference to the site of the CME-DLP (Continuous Medical Education - Distance Learning Project) and the platform is located in Salerno, Terre Risaie Street, 13/B

The course is divided into 4 modules, consisting of slides lasting 8 hours in total. The course modules are designed in multimedia format and can be used by all PCs connected to the Internet. Learners will be able to scroll the presentation as they wish and move from one screen to another without any prerequisites. The evaluation questionnaire of the acquired knowledge can be performed after reading the form screens and repeated up to a maximum of 5 times. At the end of the course, to obtain the CME / DLP training credits it is necessary to fill in the questionnaires "Analysis of training needs" and "Perceived quality sheet". Upon completion of all the answers to the "Assessment Questionnaire of acquired knowledge", the learner will be informed of the correct answer to at least 75% of the test, the minimum share to consider the test passed.

The course will be available online **from June 1, 2020 to May 28, 2021** and entitles the participant to acquire 8 CME credits, valid throughout the national territory.

The course is available on the website: www.pneumoniatarget-fad.it
